Thanks Option-Command-R Installs the "last version of MacOS available for your device", but it is clear that Apple has not yet updated its final to explain Big Sur. I installed Big Sur at the top of the catalina and there were no problems. Big Sur Installer boot and install! Reactions: apachie2k How will we have Apple information updated your End still to account for Big Sur for formatting? In any case, it is still a read-only partition to protect the operating system. Command-R Option Installs the "last version of MacOS available for your device", but it is clear that Apple has not yet updated its final to explain Big Sur. A modern operating system is MacOS, Linux or Windows 10, all incorporate safe measures to ensure little to nothing wrong. I hope Apple launches it as early as possible, a clean installation is the best way to change to the newest! Meanwhile, Bigsur works very well as updating here in the austria, now download problems, the installation was approximately half an hour! June 22, 2017 749 839 Gothenburg, Switzerland Follow these instructions to boot, format all disk and install from USB: Reactions: Markus2801a At the moment I'm installing MacOS Big Sur through Recovery Internet on my MacBook Pro 2015! So I can confirm that it is also working in 2015 MBP Series Recovery Works on Mac Pro 2013. Could someone help? Thank you I do not think it matters more. Option / Alt + Command + R Update it to the latest MacOS compatible with your Mac. You can upgrade to a later version later. "Do you suggest to install Big Sur for Catalina? I was hoping to install Big Sur. Big Sur Installer boot and install! Thanks for tempted advice yesterday on my Mac Mini 2018, you can not confirm any recovery of Internet with Big Sur available at the moment.
